DETAILED OFFICE ACTION

Withdrawal of Final Rejection

The Final Rejection of Apr. 29, 2008 is withdrawn in order to enter the following new grounds of rejection. The Amendments after Final of Jun. 5, 2008 and Jul. 25, 2008 have both been entered.

Rejection Under 35 USC 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11, 38 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In the definition of R8, methylene cannot be replaced by an N atom, as that would construe compounds with an unsatisfied valence. The X, X' variables cannot be defined as "absent," because that would yield an incomplete molecule. Apparently, X should be defined as "NH or a bond," and X' should be defined as "NH."
